

Beeazy Maths: Number Hive sample

Count, compare and explain - with the maths kept clear inside the story world.

The Number Hive needs five honey lights

Colour one circle each time you count. Then answer the questions below.

1

2

3

4

5

Talk about the number

How many lights are there altogether? _____

How do you know without starting again? _____

If one light went out, how many would remain? _____

Try another way

Show 5 with fingers, objects or marks.
